

Red Flannel Awards Winnebago Council

The Red Flannel award used to be a one step-and-you-have-earned-it-award. The new Red Flannel award provides for a four step process. The Scout or Scouter has the capability to earn the Red Flannel Award four separate times. Each step progressively becomes more challenging by changing or adding new requirements. The first step must be awarded before earning the second step and so on.

This award concept has been initiated due to the "I've done that before" statement. The four step process provides for the Units to learn new skills together and apply them as they are learned. It is recommended that the Units plan to provide an opportunity each year for Scouts and Scouters to earn a new award.

The patch designs are shown above. The award for each progressive level is a similar-looking patch, but with a small roman numeral indicating the level, and a different color border. You may wear only one Red Flannel award on your uniform.

*****An application must be filed at the Council Office and payment made to receive patches for each person earning a level of the Red Flannel Award.**

*****Applications can be obtained from the Council Office or on the Council Website, or on the last page of this informational brochure.**
